

Dear Investor,

Decentral Energy Capital (DEC) has had a busy first half of 2021. With several new projects underway, we are in a fantastic growth phase. The DEC fund continues to perform strongly: we declared a dividend of R50 per share in February 2021, and the net asset value of the fund has grown an estimated 20% against the capital raised.

We are also pleased to announce the launch of our [new website](#).
